

StudentInformation v15.0.2 resolves an issue to improve your experience. This overview explains the recent change.

Resolved Issue

Code Maintenance

- (D10150) An error occurred if you attempted to add or update some code types throughout the application. A script is included in this release to resolve this issue.

State Reporting v15.0.2 provides several new features and resolves some issues to improve your experience. This overview explains the recent changes.

This document contains the following items:

- Enhancements
- Resolved Issues

Enhancements

For more information about an enhancement, see the product guide referenced in parentheses.

Assessment Imports

- (E10126) The KRA assessment import has been updated to accept files that do not include leading zeros in the **Building IRN** and **District IRN** fields, so it is no longer necessary to manipulate the .csv file before importing it.

Assessments

- On the **Preschool ELA Assessment Record** entry screen, a new option of **S - Non-Scorable Assessment** is available in the **Score Not Reported** drop-down list for FY15 and beyond. (*ProgressBook Student Information Assessment Guide*)
- On the **International Baccalaureate (IB)** assessment entry screen, the description of **Assessment Area Code** IB84 has been updated to **IB84 - Language A Literature English - Standard Level** for FY15 and beyond. In addition, the following new codes are available in the **Assessment Area Code** drop-down list for FY15 and beyond:
 - **IB85 - Philosophy - Higher Level**
 - **IB86 - Philosophy - Standard Level**

Verify/Update Majority of Attendance IRN

- The processes to verify and update the **Majority of Attendance IRN** field on the student profile now include preschool students in the **Untested and Alternate** group.

Resolved Issues

Assessment Imports

- (D10131) The KRA assessment import incorrectly converted the last digit of error band scores to zero for scores higher than 9.99. Now, the import includes the correct whole error band scores up to 99.99.

Verify/Update Majority of Attendance IRN

- (D10154) The processes to verify and update the **Majority of Attendance IRN** field on the student profile incorrectly included 7th graders in the **Untested and Alternate** group. Now, these processes correctly include 7th graders in the **Grade 3-8** group, with the correct majority of attendance calculation end date of April 13.

Graduate CORE Summary Verify / Update

- (D10151) The processes to verify and update graduating students' total credits by CORE subject area for graduation incorrectly doubled the dual credit amount for students receiving more than one final mark in a dual credit course (for example, a final mark at the end of each semester). In this release, the dual credit calculation works correctly in these circumstances.
