Enhancements

Course Maintenance

- On the **Courses** screen, for school year 2016–2017, new subject codes have been added to the **EMIS Subject Code** drop-down list. The new codes cover 38CXXX seniors-only Industry Credential Courses.

Student Verify/Update - Collection (S)

- (E10764) The **Student Attendance (ATTUPEMIS)** update has been enhanced to update attendance values on the **FS - Attendance** tab, resetting **Current Entity Hours** to zero when a student is withdrawn before the subcalendar start date.
- The **Majority of Attendance IRN (MAJOREMIS)** on the **Untested and Alternate** tab has been enhanced to update IRNs for students who began ninth grade on or after July 1, 2014, regardless of their course enrollment or ad hoc memberships.

CTE Student Assessment (OCTCA), Assessment Reporting Collection (A)

- (E11161) **01MD - Finance** is a new **CTE Student Assessment Code** added to **OCTCA** assessments for school year 2015–2016 and later. The code is transferred with **Assessment Reporting Collection (A)**.

Resolved Issues

Verify/Update Majority of Attendance IRN (MAJOREMIS)

- (D11185) The **MAJOREMIS Verify** on the **9th on/after FY 15** tab previously did not run for some students. Attendance IRNs now run for all students selected in each tab.

Student Contacts Summary

- (D11204) Previously, the **Legal District of Residence Change Date** field saved the current date instead of the change date entered by the user. The date value entered into the **Legal District of Residence Change Date** field now saves as entered.

Calendar Bulk Exception Management

- (D11204) Previously, dates added using the **Add Days** button on the **Calendar Bulk Exception Management** screen did not add or save correctly. New days now add and save correctly on this screen.

Discipline Incidents

- (D11204) Previously, when selecting **Start Date**/**End Date** for a **Disciplinary Action** or setting the Start/End dates for a **Discipline Incident Report**, the dates did not save correctly. In these circumstances, the dates now save correctly.
