

v17.0.0 Release Notes

StudentInformation v17.0.0 provides several new features and resolves some issues to improve your experience. This overview explains the recent changes.

This document contains the following items:

- Enhancements
 - StudentInformation
- Resolved Issues
 - StudentInformation

For more information about an enhancement, see the product guide referenced in parentheses.

Enhancements

StudentInformation

Advanced Student Search

- (E12233) The **Advanced Student Search** screen now has an **All Year Search** tab that lets users search for a student in all school years. This tab functions independently of the other tabs on the screen. (*ProgressBook StudentInformation Getting Started Guide*)

Note: The **State Student Id** field currently only applies to the current school year. In v17.0.1, it will apply to all school years.

Grad Points Summary

- (E12162) End of Course Exam assessments with a **Required Test Type** of **ALT - Alternate** now no longer count toward grad points. (*ProgressBook StudentInformation Assessment Guide*)

Job Parameter Sets

- (E12148) On the **Job Parameter Sets** screen of the **Scheduler** menu, a confirmation message now displays when you click  (Execute Job and Update Existing Schedule Result) or  (Execute Job and Create New Schedule Result) for a Job Parameter Set to confirm that you wish to run the batch scheduler for the school year in context. (*ProgressBook StudentInformation School Year Setup and Configuration Guide*)

Note: You can no longer run the batch scheduler if the school year in context has a finalized schedule. If you unfinalize the schedule on the **DASL Options** screen, you can run the batch scheduler again.

Discipline Incidents

- The maximum character length for the **Incident Description** field has been increased to 1950.

Discipline Referral

- The maximum character length for the **Incident Description** field has been increased to 1950.

Transcript Formatter (R702)

- (E11312) When you select **AP** or **IB** under **Assessment Test Types**, the R702 transcript now respectively displays Advanced Placement (AP) and International Baccalaureate (IB) courses with the date the assessments were taken and their corresponding End of Course equivalent points.

GradeBook Web Service

- Night integration now calls business objects directly instead of calling to the GradeBook web service. (*ProgressBook StudentInformation and GradeBook Integration Guide*)

Student Homeroom Assignments

- When an individual student's homeroom is changed on the **Student Homeroom Assignments** screen in StudentInformation, the change is now reflected immediately in GradeBook. (*ProgressBook StudentInformation and GradeBook Integration Guide*)

Resource Permissions

- When you add or edit a security role, you can now click **Edit Resource Permissions** to determine the Ad Hoc Reports to which the role has access. You can no longer assign role access to Ad Hoc Reports through the **Edit Sitemap Access** button. (*ProgressBook StudentInformation Security Guide*)

User Interface

- In the StudentInformation application header, when you click , the **Reports - Home** link is now available in the drop-down list. You can click **Reports - Home** to view all available reports based on your security permissions in grid or list format on the **Analytics Hub** screen. In this drop-down list, the last five reports that you ran also display. Click any report to re-run it. (*ProgressBook StudentInformation Getting Started Guide*)

Note: The **Analytics Hub** is currently named **Report Catalog** in the application. The name will be updated in v17.1.0.

Resolved Issues

StudentInformation

Edit Student Profile

- (D11552) Previously, when you tried to print a single tab on the **Edit Student Profile** screen, the content of the tab printed on more than one page. Now, the content on each tab prints on a single page.

Student Absence Search Detail (R309-A)

- (D5559) Previously, when the values for **Number of Days Absent**, **Number of Partial Absences**, or **Number of Filtered Absence Types** contained a decimal number, the decimal portion of the number did not save in the load settings. Now, in these circumstances, when users select this load setting, the full decimal numbers are included.

Student Absence Search Summary (R309-B)

- (D5559) Previously, when the values for **Number of Days Absent**, **Number of Partial Absences**, or **Number of Filtered Absence Types** contained a decimal number, the decimal portion of the number did not save in the load settings. Now, in these circumstances, when users select this load setting, the full decimal numbers are included.

Student Fee Invoice (R108-C)

- (D12140) Previously, the **Course Term** filter for R108-C did not consider the course sections of each student. Now, the **Course Term** filter looks at the course sections of each student to generate the report.

Graduation Points

- (D12077) Previously, the calculation for the End of Course assessments incorrectly added MTH1, ALG1, MTH2, and GEOM together for the **State Assessment** pathway. Now, the calculation method uses the highest score between MTH1 *or* ALG1 and MTH2 *or* GEOM. (*ProgressBook StudentInformation Graduation Points and Eligibility Guide*)

Discipline Incident

- (D12265) Previously, when you created a discipline incident referral, the location you selected in GradeBook did not save to StudentInformation. Now, when you select a location on a referral in GradeBook, it saves to StudentInformation.
- (D12050) Previously, when you created a discipline incident referral in GradeBook, the student's grade level did not save to StudentInformation until you saved the referral again in StudentInformation. Now, when you create a referral, the grade level correctly saves to StudentInformation.
