

## **V17.1.1 RELEASE NOTES**

StudentInformation v17.1.1 provides several new features and resolves some issues to improve your experience. This overview explains the recent changes.

This document contains the following items:

- Enhancements
  - StudentInformation
  - StateReporting
- Resolved Issues
  - StateReporting

For more information about an enhancement, see the product guide referenced in parentheses.

---

### **Enhancements**

#### **StudentInformation**

##### **Analytics Hub**

- The **Report Catalog** screen has been renamed **Analytics Hub**. (*ProgressBook StudentInformation Getting Started Guide*)

#### **StateReporting**

##### **ACT**

- From FY17 and forward, when you add or edit an ACT assessment record, the **Score Not Reported**, **Accommodation**, and **Test Location** fields display only for records with a **Testing Date** in FY17 or later. (*ProgressBook StudentInformation Assessment Guide*)

##### **EMIS Defaults Maintenance**

- (E12300) From FY18 and forward, the **EMIS Defaults Maintenance** screen now has a pre-populated **KRA Pre-Id Data Collection Token** field so that technology centers can specify a different default token value for all their districts if needed. (*ProgressBook StudentInformation ITC EMIS Guide*)

##### **Pre-Identification Export**

- (E12188) When you create a **Pre-Ident for Next Generation Assessment Export** or **Pre-Ident for End of Course Exam Export** file, any subject area that is not selected now no longer contains values of **N** and the column is left blank in the **Test Eligibility Mode** fields of the export file.

### Staff/Course Reporting - Collection (L)

- The Period L **Verify - Subject Codes** (INVSUBJ) process now returns courses with invalid EMIS Subject Codes regardless of whether they have course sections or students enrolled. The returned **Course Subjects** grid now also has a **Students Enrolled** column that indicates whether or not students are enrolled in the course. (*ProgressBook StudentInformation EMIS Guide*)

### Assessment Import

- (E8681) The **Assessment Import** screen now supports AP Exam imports for assessments taken in FY16 and later. (*ProgressBook StudentInformation Assessment Guide*)

---

## Resolved Issues

### StateReporting

#### Student Transfer - Collection (S)

- (D12386) Previously, the Period S **Transfer - Student Discipline (GD)** process incorrectly included the **# of Days** of discipline for non-EMIS reportable actions. Now, the **Transfer - Student Discipline (GD)** correctly excludes these numbers.

#### Special Education Import (SpS)

- (D12366) Previously, when you imported a special education file that contained students with End of Course and Next Generation assessment records that had **Accommodations** values other than “No,” you received an error message that indicated the **Accommodations** values must be “No.” Now, in these circumstances, End of Course and Next Generation records with **Accommodations** values other than “No” transfer into StudentInformation without error.

#### SAT Reasoning Assessment

- (D12364) Previously, when you already added one SAT Reasoning Assessment, when you tried to add another, the **Score Not Reported** value defaulted to the selection made for the prior assessment record. Now, in these circumstances, the **Score Not Reported** value always defaults to \* - **Not Applicable, Student took the Test** regardless of the prior selection.
