v18.0.3 RELEASE NOTES

StudentInformation v18.0.3 resolves an issue to improve your experience. This overview explains the recent change.

Resolved Issue

StateReporting

Fall Initialization

- (D13530) Previously, when you ran the Fall Initialization Update, it initially indicated that it submitted successfully but the **Batch Management** screen at the ITC level indicated that the DASL_EMIS_EXTRACT job resulted in an error. Now, you can run the Fall Initialization Update without error.
