Resolved Issues

StudentInformation

Ad Hoc Reports

- (D13520) Previously, an update to Ad Hoc Reports caused the **Database Row Limit** value to reset to **20,000**, which sometimes caused issues when reports were run for entire districts or multiple schools. Now, the value has been updated to **300,000**.

Core Overflow

- (D11828) Previously, with the current school year in context, when you tried to add a new **Core Overflow** and clicked **Save**, an error occurred. Now, in these circumstances, you receive a warning message stating that you cannot add a new overflow.

Graduation Points

- (D13374) Previously, on the **State Assessment Pathway** screen, when a student had IEP exemptions for dual subject End of Course assessment areas, such as ALG1 and MTH1, but only took the End of Course exam for one subject, such as ALG1, both IEP exemptions incorrectly displayed. Now, only the IEP exemption(s) with the corresponding End of Course exam(s) taken displays.
- (D13433) Previously, when a student's **Fiscal Year Began 9th** value on their **Edit Student Profile** screen **FN-Attributes** tab was 2015 and they had a manually-added physical science course in the 2015 (or prior) summer term, you received an error on the **Grad Points Summary** screen if you clicked **Check for Updated Information**. Now, in these circumstances, the screen no longer returns an error.

Homeroom Bulk Assignment

- (D13432) Previously, on the **Multiple Homerooms** tab, when the **Class Period** radio button was selected for the **Select Students By** field and you clicked **Assign Students**, the screen timed out. Now, in these circumstances, the screen no longer times out.

Shared Student Data

- (D3817) Previously, when you selected **EMIS - FS** from the **Choose data to review** drop-down list, depending on the corresponding values on the student's **Edit Student Profile** screen **FS-Standing tab**, the **Sent To 1 IRN** and **Sent To 2 IRN** values sometimes displayed incorrectly. Now, in these circumstances, the **Sent To 1 IRN** and **Sent To 2 IRN** values display correctly.

StateReporting

Assessment Imports

- (D13438) Previously, the **Redesigned SAT (New Format as of 10/2015)** assessment import timed out for large districts. Now, the import runs successfully.

Calendar Reporting - Collection (C)

- (D9763) Previously, the **Transfer - Building and Grade Calendar (DN/DL)** process incorrectly included inactive sub-calendars with the **Report to EMIS** check box selected. Now, only active sub calendars with the **Report to EMIS** check box selected are included.

Student Transfer - Collection (S)

- (D11129) Previously, when you ran the **Verify/Update - Majority of Attendance IRN (MAJOREMIS)** process and selected the **Untested and Alternate** tab, the **Ad-Hoc Membership for Alternative Assessment Students** drop-down list displayed the ad-hoc membership names incorrectly. Now, in these circumstances, the ad-hoc membership names display correctly.
