

V18.2.0 RELEASE NOTES

StudentInformation v18.2.0 provides several new features and resolves some issues to improve your experience. This overview explains the recent changes.

This document contains the following items:

- Enhancements
 - StudentInformation
 - StateReporting
- Resolved Issues
 - StudentInformation
 - StateReporting

For more information about an enhancement, see the product guide referenced in parentheses.

Enhancements

StudentInformation

Ad Hoc Reports

- To improve the user experience, drop-down lists on reports now populate with data from a read-only database.

Course Sections

- A script has been included in the release for all course sections within schools that use period attendance to select all periods on the **Attendance** tab that correspond to the selected meeting time period(s) on the **Meeting Times** tab.

Edit Student Profile

- A script has been included in the release to update any new **Unaccompanied Youth** field values of * to **N** on the **Edit Student Profile** screen **FS-Attributes** tab.

Shared Student Data

- When you select **EMIS-FS** from the **Choose data to review** drop-down list, in the grid that displays, the following fields have been removed:
 - October CW Attending Days
 - October CW Excused Absence Days
 - October CW Unexcused Absence Days
 - October Non-Attending Reason

(ProgressBook StudentInformation EZ Query Guide)

Student Absence Search Summary (R309-B)

- The report now displays **Partial Absence** values. (*ProgressBook StudentInformation Attendance and Calendar Guide*)
- You can now choose a **Report Format** of **Days** or **Hours**. When you select **Days**, the report displays the **Days Absent** and **Partial Absence** values. When you select **Hours**, the report displays the **Hours Absent** values. (*ProgressBook StudentInformation Attendance and Calendar Guide*)

Student Email Import

- (E9437) The **Student Email Import** screen has been added so that you can import a .csv file containing student email addresses by student number into StudentInformation. (*ProgressBook StudentInformation Import/Export Guide*)

StateReporting

AP Exams

- When you add or edit an AP Exam record, you can now select a **Subject** of **Other AP Assessment Not Otherwise Listed**.

Assessment Reporting - Collection (A)

- When you run the **Transfer - AP (AP)** process, the new **AP99** EMIS AP code is now included for the following AP assessments:
 - Computer Science Principals
 - Calculus BC: AB Sub-score
 - Music Aural Sub-score
 - Music Non-Aural Sub-score
 - Other AP Assessment Not Otherwise Listed
- When you run the **Transfer - OCTCA (GY)** process, the new CTE student assessment codes and subject records are now included.
- When you run the **Transfer - OCTCA (GY)** process, the **Subject Assessments** from prior years and the actual test date are now included in the transfer file.

Assessment Imports

- (13336) The **OCTCA** import now supports .csv files and the new subject records. All subject record dates of MM/YYYY or Month-YY (e.g., Aug-2018) are imported as MM/01/YYYY and scores as numeric values. (*ProgressBook StudentInformation Assessment Guide*)

Resolved Issues

Student Information

Daily Absence List

- (D13050) Previously, the **Daily Absence List** screen did not display absences for days that were attending days on the sub-calendar but were non-attending days on the master calendar. Now, in these circumstances, the absences display correctly and all absences that have been entered for future dates within the selected date range also display.

Daily Office Report of Student Absences (R307)

- (D12713) Previously, when a student had a partial absence on the report and the student absence record directly before this partial absence record had a different absence interval value, such as Full, the student's partial absence record displayed the incorrect absence interval. Now, in these circumstances, the correct partial absence interval value displays.

ITC to ITC Transfers

- (D13489) Previously, when you transferred a student between two ITCs, in some circumstances, an error occurred. Now, the transfers process correctly.

Shared Student Data

- (D13611) Previously, when you selected **Daily Absences** from the **Choose data to review** drop-down list, if the student did not have any absences for the current school year, the grid that displayed incorrectly included absences from a previous school year. Now, in these circumstances, the grid only displays absences and non-absences for the current school year.

Standard Comment Maintenance

- (D11839) Previously, when you tried to access this screen, an error occurred when some alpha characters were used in the comment code. Now, the screen loads without error.

Student's School Absences

- (D13050) Previously, the **Student's School Absences** screen did not display absences for days that were attending days on the sub-calendar but were non-attending days on the master calendar. Now, in these circumstances, the absences display correctly and all absences that have been entered for future dates within the selected date range also display.

State Reporting

Assessment Import

- (D13536) Previously, when you tried to import AP Exam results with blank values in the **Date of Birth** column, an error occurred. Now, such records display on the **Unmatched Records** tab instead.

Graduate Reporting - Collection (G)

- (D13535) Previously, the **Transfer - WorkKeys (WK)** process included the incorrect assessment area code for mathematics for Version 1 of the WorkKeys assessment. Now, the process includes the correct assessment area code.

SAS Pre-Identification Export

- (D12738) Previously, when you ran the SAS Pre-Identification Export, it incorrectly included students from inactive buildings. Now, in these circumstances, only students from active buildings are included.
